*“What is required is for someone to just roll up their sleeves and get working. Fast. Companies don’t have the spare time to hand-hold vendor resources. This requires our people to be well versed with both the technology and the processes.”*

*Pranjal Neog, CEO*

*StruFin*

*“StruFin brings with them a certain style of execution and they are always in control. I am assured of both quality and delivery deadlines, and don’t have to waste time troubleshooting issues.”*

## StruFin: Profile

StruFin works with successful mid-cap businesses worldwide to help them manage their F&A, Legal and other business processes at global standards.

Global HQ is in Pune, India, with ODCs in Bangalore and Delhi.

### Services & Solutions

Our services are designed to address the various support requirements that organizations encounter while moving from good to great – helping them strike balance between business velocity and control/compliance:

- Consulting [Strategy Implementation, Process/Compliance/Quality, MIS, ERP]
- Outsourcing [FAO: AP, AR, Recon, ERP data migration, Legal processes]
- BPM/Workflow Automation [Design & Implementation, MIS]
- Tax Advisory Services
- Training & Staffing [Accounting, ERP: FICO]

Ownership is the key factor in our engagements – giving our clients the vital confidence they like having.

### Capability Matrix & Value Proposition

StruFin brings together, in a structured scalable environment, hands-on professionals with expertise from the nuts-and-bolts level in technology, domain and processes to operations optimization and large-scale project management for global clients.

The leadership team comprises of chartered accountants, LSS Black Belts, Finance MBAs, IT Pros, empanelled Oracle Univ faculty, and legal experts – professionals with an average experience of more than 11 years with both the Fortune 500 and Startups.

*This enables StruFin to deliver results with certainty, using an integrated and sure-footed approach for meeting departmental and organizational goals of clients.*

Our consulting services guide the transformation, while our outsourcing services help maintain KPIs at par with the best – services that are designed for seamless delivery on On-site as well as Remote mode. As a client, you can choose a custom engagement model as per your specific needs, combining multi-level participative roles with both effort-based and success-based fee structures.
